

Extraordinary reach.
Unconditional care.
Life-changing results.

August 6, 2020

Dear Theresa Paplin Families,

We thank you for your patience and flexibility during this health crisis. As we look to September, we are creating a “new normal” for our staff and students. This includes a mixture of different learning models such as in-person learning, remote learning, and alternative programs. Like the rest of the city, we are working hard to move back to full in-person learning this fall.

Please know that the safety of our students, families, and staff are the highest priority. We are following all guidelines set by the Health Department and CDC and will continue to do so. Throughout the school year, we will continue to assess the health and safety of everyone and make adjustments as necessary in accordance to the enclosed plan.

Feel free to call us if you have any questions. The full plan can be viewed on SCO Family of Services website at <https://sco.org/covid-19/>. We are available at the school (718.674.8910) or contact your RTF social worker if you have any questions.

Warmest Regards,

Shante Spivey,
Principal
Theresa Paplin School
